

**TGSA EXECUTIVE REPORTS-**  
**July 7th, 2015**

**Laura:** I attended the Sexual Violence committee meeting the other week, where we worked on drafting the policy for how Trent deals with issues of sexual violence. I also have a meeting later today with the Vice President of University and College affairs (primarily at the undergraduate level, to discuss orientation for mature undergraduate students at Traill and to start brainstorming the possibility of a mentorship program at Traill between graduate and undergraduate students).

**Alison:** Done committee list. Making documents about the TGSA, meetings, making motions, voting, etc. to use for orientation. Looking over by-laws for more things to change.

**L. Renee:** Since the BBQ, I have done a lot of grocery shopping. We facilitated 2 graduate BBQ's for the GSA, including planning, shopping, and the actual BBQ's themselves. Laura and I networked with the Master's Ed. students in order to explain to them what GSA does for them and try to get them interested in GSA functions and becoming involved in the various committees that meet around campus. The June BBQ was under budget, and we expect the same for July.

**David H.:** I will have information on TGSA "swag" ready to present at the next board meeting. I have also been looking into ways to a) upgrade our website; b) update TGSA exec emails; c) drastically improve the interactive and/or multimedia components of our website; d) create documentary on the importance of Traill College to the university and community at large. I'll have more detailed updates on each of these by the next exec meeting.
