

TGSA Executive Reports:
June 15th, 2016

President: I had a meeting with Alison Peek (M.Ed. Administrative Secretary) in regards to the orientation day for the M.Ed. program on July 4th. I agreed to do a 10 min presentation about TGSA and such. Will need to find a volunteer to do the campus tour. I will share the schedule she has given me with the exec team. I had a meeting with the health plan committee, in which Laura Thursby was also present as well (Miteb could not make it but I met with him afterwards to relay info). I met Elaine (president of TCSA) and Tracy (Operations/services manager of TCSA) as well as the Student VIP members there and discussed the health plan. I have brochures with me that I can share with the exec. Team – these brochures would be given out to grad students so perhaps feedback on them would be nice. I can also send a summary report of our meeting if anyone wants.

VP of Student Affairs: I've submitted a risk management for the Game Day which is scheduled for June 17th 2016. It was approved by risk management, and I am now in the process of booking the facilities at the Athletic Complex. I am currently awaiting a response from Deborah Bright and Alexander to verify the date and time (1-3 pm).
